### WHAT IS A YACHT LEASING PROGRAM?

Why buy a yacht when you can purchase hours to enjoy a yacht that could be yours for 5, 10, 15, or 20 hours, complete with an experienced crew, dockage, and luxury in your lap? Lots of Yachts now offers a yacht leasing program which allows you to enjoy the yachting experience without the expense of maintaining, captaining and staffing the yacht, and spending endless amounts of money for insurance, dockage, and repairs.

The Lots of Yachts / Lots of Spots yacht leasing program is available beginning January 1<sup>st</sup>, 2011 and hours are good for up to one year. You can purchase blocks of time for use in hourly intervals, ranging \$500 - \$1000 an hour depending the yacht you choose. Hours are available for use in Palm Beach, Broward, and Dade counties, as well as New York and New Jersey. You also have the option to use the yacht for weekend trips to Key West or Bahamas. The winter months, the yachts are available in South Florida, and in the summer months, they are in the New York, New Jersey and Connecticut areas.

The yachts are available for half day, daily, and longer charters without participation in this program. Please feel free to contact us for more information at 917-691-5688.
