THE BAHAMAS AND EXUMAS

Explore the beautiful tropics of the Bahamas which are home to some of the best waters in the world for fishing, watersports, and relaxing. The Bahamas is made up of 700 islands perfect for exploring on yacht. Take in the nightlife of Nassau or test your luck at the casino at Atlantis.

Just a short trip from the Bahamas lies Exumas which features pristine beaches, the famous swimming pigs and 365 islands to explore. Some of the best places to explore include Warderick Wells which has interesting pirate history, Compass Cay where you can swim with nurse sharks, or Thunderball Grotto where a James Bond film was made. Relax with family and friends as you explore the beauty of the tropics.

Day 1 – Arrive at Nassau where you get your first experience of the relaxing island lifestyle. Walk the main street and see all of the shops including the straw market which houses local crafted gifts. After which you can head back to the beautiful Atlantis Resort on Paradise Island.

Day 2 – Set-off on your journey by first stopping at Shroud Cay in the northern Exumas. This uninhabited island features many tidal creeks, perfect for kayaks and waverunners. One creek leads to Camp Driftwood which can be best described as a scene from Robinson Corsoe.

Day 3 & 4 – After enjoying your breakfast, it's a short cruise to Staniel Cay. Here you can explore Thunderball Grotto or relax on the spectacular beaches nearby. You can spend your day relaxing on your own time or enjoy a snorkeling adventure.

Day 5 - Next stop on your journey is Highbourne Cay where we will be snorkeling over the downed plane. We will then travel to Allen's Cay where you will have the chance to feed rock iguanas and the wild birds as well.

Day 6 – Enjoy the day cruising to Harbor Island by way of Devil's Backbone. Once there you are free to explore the island by foot or rent a golf cart. Harbor Island is best known for its pink sand beach, perfect for horseback riding.

Day 7 – Unfortunately, we have come to the last day of the trip, but not before having the chance to discover sea biscuits and sand dollars. These can be found in abundance just a few hundred yards off the dock.
